Resource allocation decisions across the network are made to optimise the consolidated Group's financial result.

Geographical segment

An analysis of operating revenue by geographic region of original sale is provided below.

3.1 Basis of preparation

This report is compiled in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). NZ GAAP consists of New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") and other applicable financial reporting standards as appropriate to profit-oriented entities.

3.2 Accounting policies

Refer to Statement of Accounting Policies in the financial statements.

3.3 Changes in accounting policies

Subsequent to the interim six month period ended 31 December 2010 and the acquisition of an equity investment in Virgin Blue Holdings Limited, Air New Zealand has early adopted NZ IFRS 9 (2009) - Financial Instruments for the annual financial reporting period ending 30 June 2011. NZ IFRS 9 (2009) simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortised cost and fair value, which replace the categories of financial instruments defined by NZ IAS 39, including available for sale financial assets. An irrevocable election was made on early adoption of this standard to recognise changes in the fair value of a specified investment in quoted equity instruments through other comprehensive income.

There have not been any other accounting policy changes during the year.

3.4 Audit Report

A copy of the audit report is attached at the back of the financial statements.

3.5 Additional information

Not applicable.

This full year report was approved by the Board of Directors on 25 August 2011.
